● **DesignTech**
Technology For Designing The Future

Course Name : *Basics of SCADA*

Course Overview

- **Description**
 - The Totally Integrated Automation Portal (TIA Portal) provides the working environment for end-to-end engineering with SIMATIC WinCC. The SCADA functionality (Supervisory Control and Data Acquisition) of WinCC Professional is designed for visualization and operation of processes, manufacturing cycles, machines and plants.
- **Intended Audience**
 - This course is suited for engineers, designers, Application Programmers, Maintenance engineers, Commissioning Engineers, System Builders and Project Managers
- **Prerequisites**
 - Diploma / Degree students in Electrical / Electronics / Instrumentation / ENTC / Biomedical / Mechanical Engineering.
 - Knowledge of PLC

Class Timing: 10 AM to 3 PM (1st, 3rd and 5th Saturday of every month)
Break: 12 PM to 1 PM
